When the sun has

the city will have
no light in the daytime

and humans will lose
their colors

Where is it?

Kill them all!
The black and whites!

We are the true
generation!

Hold the legs!

Breaking news!
At least 20 people
have been injured
at the City Hall bombing!

They suspect
the B/W man
league has done it!

Not again!

Jesus!

Let me
punish!

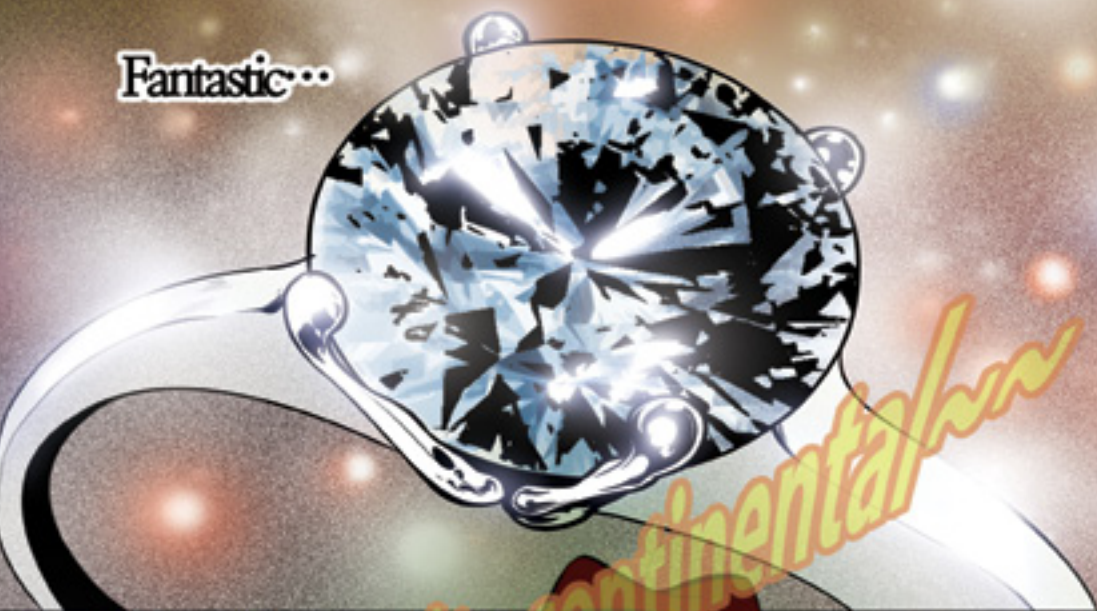

The more
B/W man,
the more
serious it
gets.

We will listen
to music
before we talk
to an expert.

A Kiss on the hand

Fantastic...

May be quite continental~

I would like to
give it to her!

Close the door!
Or, the sun light comes in!

Yes, sir!

Take it off!

Yes, yes...

See?
I'm a colored.

My skin is
dead good!

Dead good?
Do you want
to be dead?

Yes, yes...

Next time,
the color first!
Then, the deals!

So, what did
you say you
want?

Spotted sun...

They call it like that. Spotted sun!
The sun with the big hole in the sky...

Isn't there
anything proved,
Doctor U?

No, there isn't.
How can it be like
the sun with a big
hole?

Why we humans
are getting b/w
disease losing the
color?

But, one thing for
sure is that there
is a cause and
effect between the
spotted sun and
the B/W man.

Interesting!
Could you
explain more?

When the first
spotted sun was reported,
a father at a
Catholic Church
became black and white.

Are you insane
walking on the
streets among
people like us?

Well, you talk

and the birth
of B/W man.

Ha ha... Don't
worry. There
is a solution!

But, if we
don't get
exposed
enough to the
sun, we may
get rickets.

You should
go to this
place called...

For what?

No need
to worry.

Solaris is the safest
place on earth
where you get the
natural sunlight.

I know
but...

Aren't you

That is

You will live
rich forever.

I don't want it!
Just make me

Does it sound
funny to you?

If we could

we would have

You kill them

the core of
life to them
like humans,
I suppose.

Suppose?
Aren't you
sure about
this?

We've
developed the
special glasses

now.

But, that's all
we got. This
has never
been tried before.

Still wanna
do?

Go!

All gone!

I stabbed it!

This left side?

Sure!
Left chest!

Interesting...

I guess it's the
mirror effect...

Mirror effect?

It's like when
you look into

everything is in
the opposite side.

The left looks right.
The right looks left.

Probably,
you have

reflection of

You should've

I told you
you're the first
one doing this!

Then, what now?

Run!

What?

You run!!!

Before the sunset!

When the sun sets,
they'll disappear!

How in the
place can I
find them?

heart leads you.

You still

the colored.

I used to be!

Until you
have
turned me
into this!

But, you are
the simple
and pure b/w man
now like us.

Simple and pure?
Who's gonna like
this dumb look?

You are the one to
be forgiven but
don't understand.

However, only
god has the
power to make
that decision.

And he will
ask me to do
his work.

What...?

What have I
done to
deserve this?

Or,
maybe...?

Are you insane

people like us?

that is some
situation hard

What you are
trying to do is
against
the nature of
law.

....?!

You mean
finding back
colors?

But, I'm just
trying to get
to myself!

Humans have
already lost
their true colors.

God wants us to
evolve. We are
going back to our
simple and pure
self. Black and
white!

Look!
Isn't it
beautiful?

Beautiful?

We are god's
last creation
and the fruit of
the most
purest material.

Why are you
trying to
refuse? Even
destroy?

You are
chopping
logic!

You have made
turned me into this.
That's why I have
been looking for
the colors.

You are the one
who cause all these.
Why you are letting
the ordinary people
sacrifice their lives?
That is not right!
You're polluting
the world!

Oh, you poor thing!
That is not sacrifice.
And I am definitely
not polluting the world.
I purify the world.
The world is already
polluted, my dear.

Look at this. This black diamond used to be priceless. But now because of its color, it has lost its value. It is even cheaper than a fake diamond.

It's not a fake!

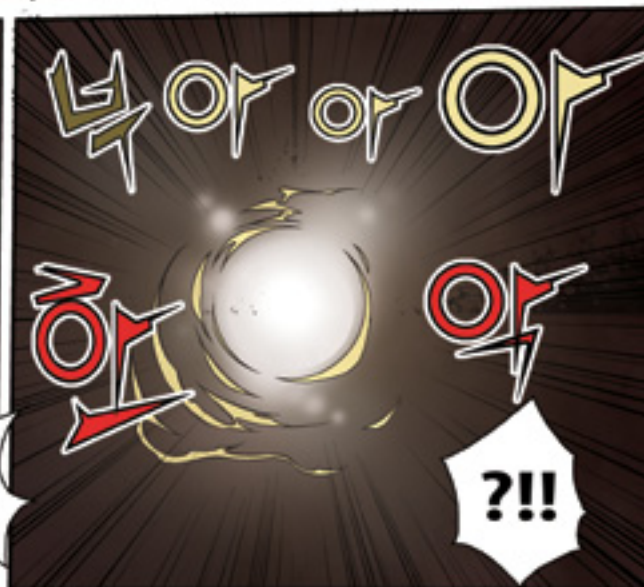

What? What's this?

Too dark!

Who turned it off?

Our father is talking!

Argh...

Hey! It's
too fast,
Slowly!

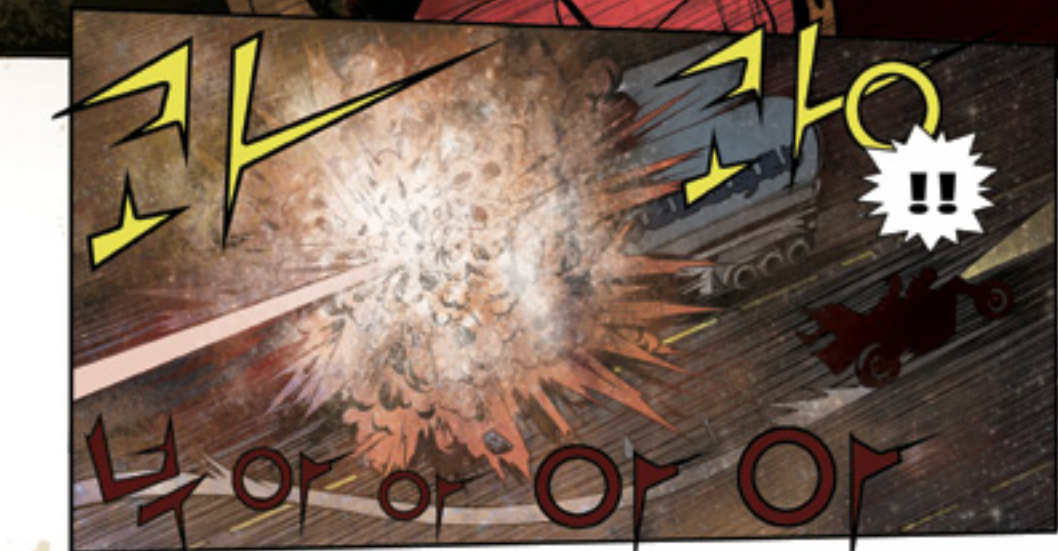

No one is
following.
So...

everything in

Then, we
should've
caught them
already!

This is the first time
what you're doing.

Why don't
you just take
the gold?

You could
buy anything
you want.

Except for the feeling.
I just wanna keep
what I had
when I was me.

Anyway, we have
never tried the

We cannot

if it will work
properly.

One more...

How did
you...?

Thank
you so
much!

I'll never
lose it again..

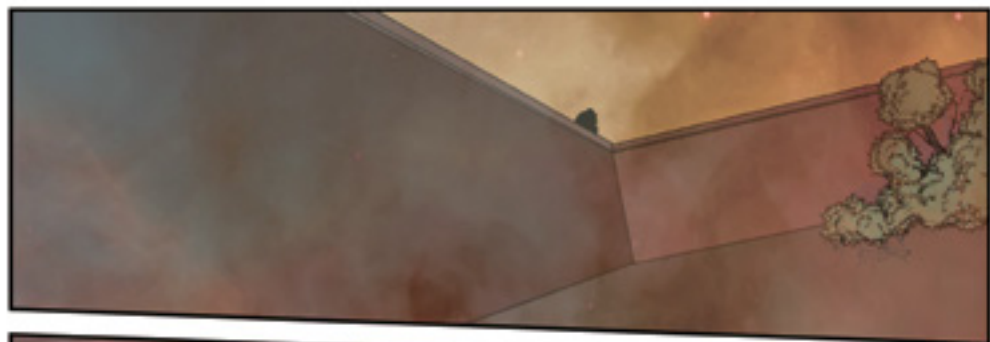

I'm gonna

today!

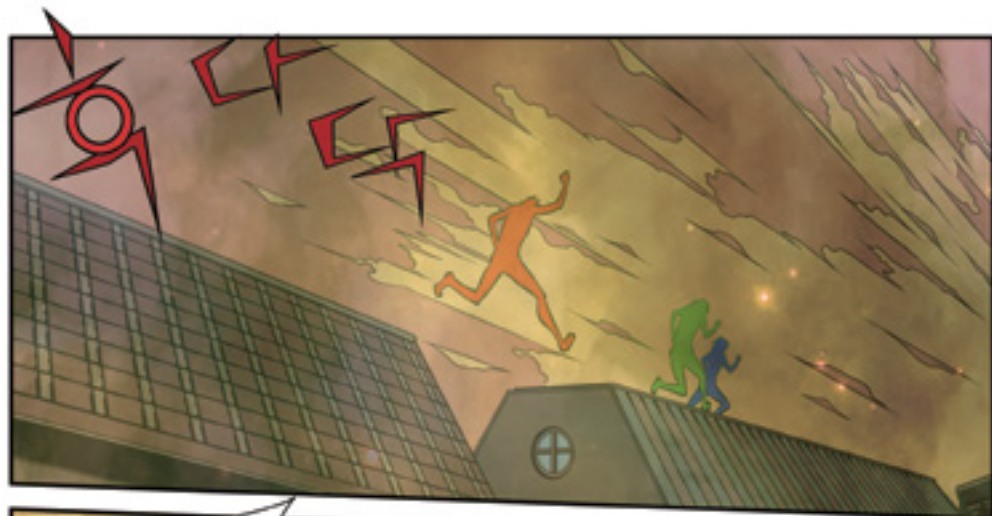

Then
run!

Run,
run,
run!

Go fast
now!

A comic book illustration showing a superhero in an orange cape and mask running across a series of rooftops. In the background, three other figures in orange, green, and blue are also running across the rooftops. The sky is a dramatic red and orange, with dark smoke billowing from the city skyline in the distance. The rooftops are made of grey tiles, and the buildings have many windows, some of which are lit up.

Whew...

Why today?
Why, why?

Doesn't she answer it?

No, I mean it's not like...

I heard there was a man like you long time ago.

What? But you said I was the first one who've done this.

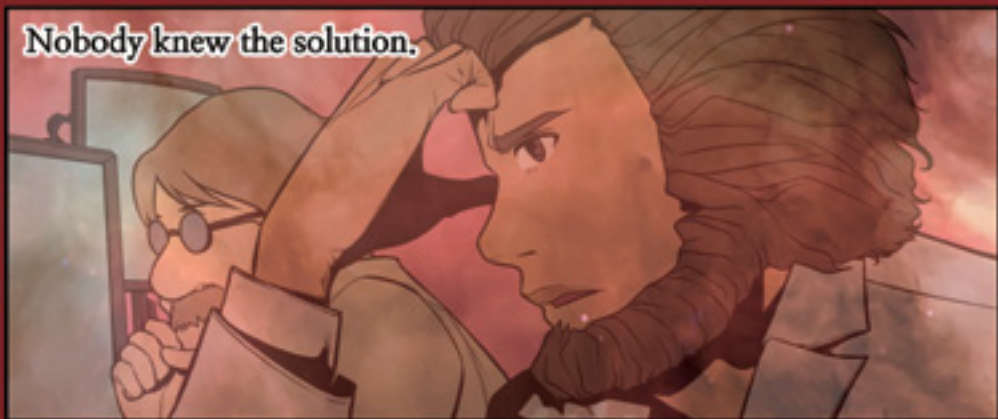

What the heck is this!

What Whappened to my skin?

When we first saw the black and white person,
we didn't know what to do.

Nobody knew the solution.

We tried to stop him. But he didn't listen.

One day, he found the solution himself.

He came back so excited.

He said he found the way out getting back himself.

What happened then?

Nobody knows. He never came back.

But, he said something like this before gone.

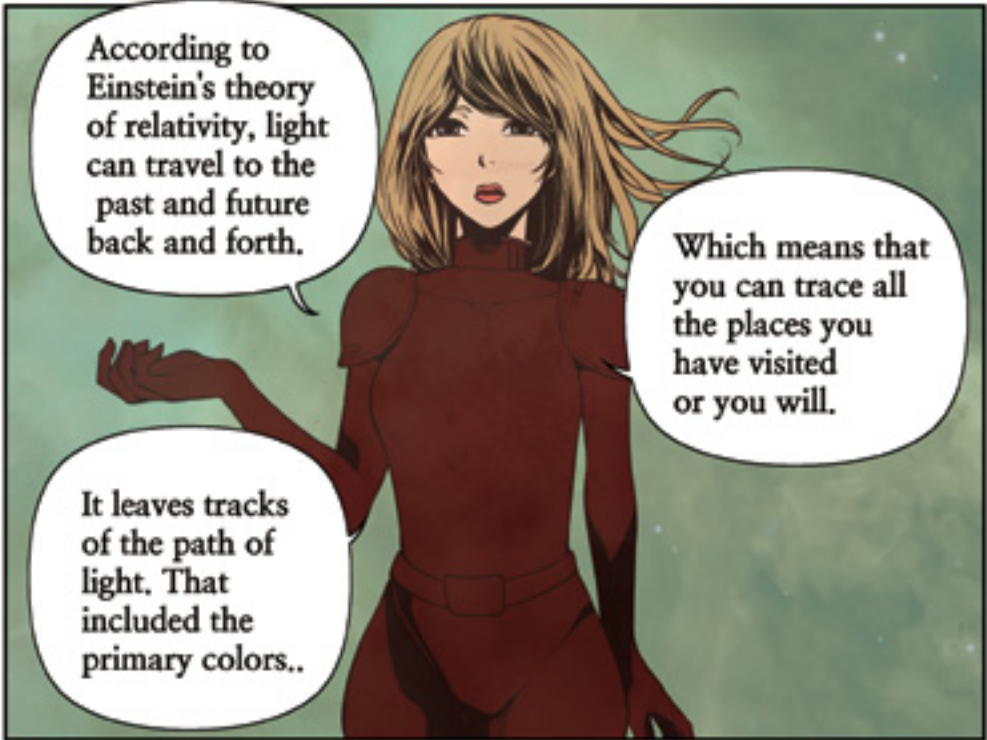

I will go on
a time travel
of my own.

Time travel
of my own?

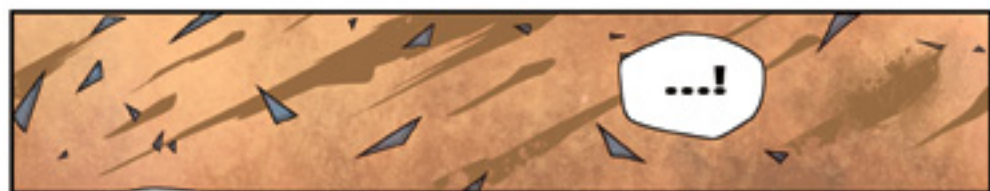

According to
Einstein's theory
of relativity, light
can travel to the
past and future
back and forth.

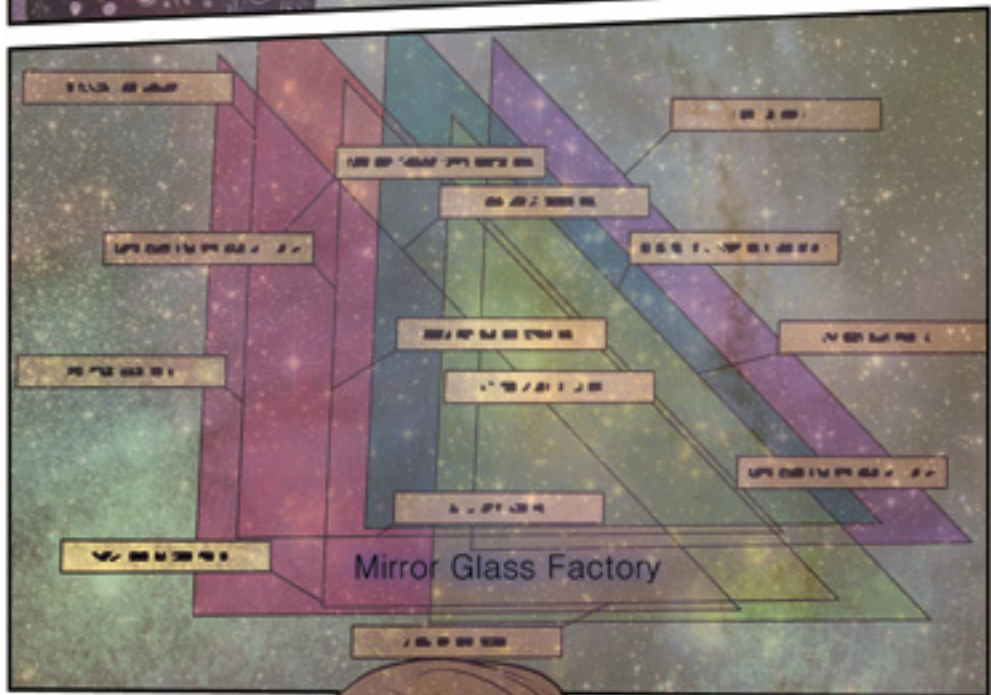

Which means that
you can trace all
the places you
have visited
or you will.

It leaves tracks
of the path of
light. That
included the
primary colors..

...

Then, my
future is
decided?

It's a
mirror
factory.

It has stopped
operating for
the time being.

OK then,
let's go there!

Hurry up!
We are
out of time!

Can you tell
me what this is
about?

We go on
a time travel
now.

Run!!
Run!!
Run!!

Well, according to the theory of relativity, the colors would probably be at some point in my future. And the future all depends on my own will, so...

Please pass me the mirror right there...

Oh...

I'm not gonna chase any more.

Now the colors
can't get away from
the labyrinth
reflecting all over.

They are getting
so fast in the
speed of light.
